

COMMUNITY NOTICE

Miller Blast Planned for May 12; Crusher to Operate until Early July

May 5, 2021 – This notice is to inform residents of Miller Paving’s plans for the Spring Blast and the aggregate production schedule at NFN Quarry.

Blast on May 12th or 13th: A blast is planned on May 12th, with May 13th being the back-up date in the event of adverse weather conditions. Due to COVID safety measures, notice a day before the blast will be provided by posting on the electronic sign boards and social media rather than door-to-door. Notice was also posted in the May issue of *Enkamgak* (community newsletter).

Crushing Operations until early July: Crushing will begin immediately following the blast and is expected to last until early July. The approved crushing operation is from 6:00 a.m. to 10:00 p.m. 7 days a week.

Miller will continue with the mitigations that have been implemented over the past couple of years, including increased collar depths on drill holes. Blast monitoring will be undertaken during the blasting operation.

Should you have any questions or concerns, please contact:
