

NOTICE TO RESIDENTS OF NIPISSING NATION

Re: NFN & LEEPFROG Broadband Internet Project Tower Location

July 13, 2021 - On June 17, 2021 a news release informed the membership and residents of Nipissing Nation of how a non-ground penetrating tower & TVWS (TV White Space) technology will bring improved high-performance internet to Nipissing First Nation.

This project will focus on 5 major residential areas: Garden Village, Jocko Point, Meadowside, Beaucage, and Yellek, all within the Nipissing First Nation. Supported by CENGN program funding, Leepfrog Telecom will install a new innovative non-ground penetrating tower, using both 5GHz and TVWS radio technology to distribute internet services to all 5 communities.

The tower is 100 ft. high with a 4 ft. by 8 ft. shelter at the base. The location of the tower is at the end of Jocko Point where the road intersects Paradise Road as shown on the sketch above.

Please address any concerns on the location of the tower in writing **by August 20, 2021** to: Cathy McLeod, Land Manager, 36 Semo Road, Garden Village ON P2B 3K2 or cathym@nfn.ca

Please address any concerns about the tower in writing **by August 20, 2021** to: Bruce McLeod, Project Manager, 36 Semo Road, Garden Village ON P2B 3K2 or brucem@nfn.ca

Miigwech!
