Background

NFN is committed to principles of sustainability and the protection of resources while maintaining the practice of our rights in a responsible way.

We regulate our own fishery through assessments, active monitoring, data exchange and harvest reporting, and we collaborate with the Ministry of Natural Resources and Forestry to enforce our *Fisheries Law*.

NFN’s Gichi-Naaknigewin (Constitution) and *Fisheries Law* were ratified by Debendaagziwaad and are recognized by Ontario - a first that supports a new approach to fisheries management and nation-to-nation relationship building.
